

UAP
LIMITED
DOOR KNOCKERS

QUALITY PRODUCTS THAT DON'T COST THE EARTH

INTRODUCTION

UAP Limited was established in 1996 and has since become a leading UK supplier and distributor of decorative door hardware and specialised Locksmith tools and security products. With 15 years of quality products, excellent service and competitive prices, UAP has grown from strength to strength, year on year and expanded significantly. We have an in house Research & Development Department, meaning we are constantly enhancing our current ranges as well as introducing innovative state-of-the-art products that are not only practical and beautifully designed, but also put through stringent quality control checks at every stage of development. From door knockers, door viewers, letter plates, letters and numerals to cylinder locks, security products and more, all of our products are available in a wide range of sizes, colours, materials and finishes to ensure we can meet every possible requirement.

AN ETHICAL APPROACH TO BUSINESS

'Quality Products That Don't Cost The Earth' isn't just our sales slogan, but a statement about our wider philosophy. It means we value our people and our planet and we are keen to make a positive difference to the wider communities we touch through our work and via the profits we make.

For everyone at UAP, our ethical policy isn't just a statement that is allowed to gather dust in a file somewhere, but rather something we all show through taking real action. So in practice this means;

Reducing our carbon footprint:

Thanks to the UK registered charity 'Plant-a-tree-today.org' we have offset all of our carbon emissions. We have funded the planting of more than 56,000 trees over the course of a three year reforestation project, which will enable the reintroduction of many endangered and native wildlife. We have now finished the installation of solar panels on our buildings.

Environmentally friendly fleet:

All of our company cars are environmentally friendly hybrids to reduce our impact on the environment.

School projects:

After teaming up with local charity, DCWC Nepal, we have helped to fund the building of 5 much needed community primary schools in one of the poorest countries in the world. Before the scheme, children as young as 5 years old had to endure an exhausting and dangerous 4 hour walk to and from school, 6 days a week. To raise awareness of this worthy cause, we have worked closely with former Coronation Street star Sean Wilson, best known as Martin Platt, who opened the schools on our behalf. To date, the scheme has given more than 1,000 children the opportunity to learn and better their lives.

Charity support:

In 2010, we hosted a Charity Ball to raise vital funds for DCWC Nepal to immunise 10,000 children from tuberculosis. In the wake of the 2011 tsunami and earthquake disaster in Japan, we supported the Red Cross through donations. We have also supported Comic Relief through the charity bids known as 'Twit Relief'. On top of this, several members of staff participate in charity runs every year to raise money for The Christie and Breast Cancer Research UK.

BRANDS

UAP: Our outlet for decorative door hardware and security products for the trade.

Universal Imports: Our outlet for decorative door hardware and security products for the retail market.

TradeLocks: Our outlet for specialised Locksmith tools and security products for the trade.

Hidden Fix: Our patent applied for technology which leaves no visible signs of product fixings to doors.

Salamander®: Our fire check product range which will resist the spread of fire for up to 60 minutes.

Nanocoast®: Our pollution and corrosion resistant product range with up to 10 year coastal guarantees.

Anti-Vandal™: Our products that are safer by design to protect products and property from vandalism.

POLICIES & GUARANTEES

48 Hour Delivery Policy*: Our 48 hour delivery promise is targeted on all stocked products.

5 Year Product Guarantee: All products inside this brochure come with up to a 5 year guarantee, except for the Extra Large Round Lion Head which is 2 years, and the Nanocoast™ range which is 10 years.

Salt Spray Testing: All of our door knockers in this catalogue have been salt spray tested to ASTM B117 for 480 hours, apart from the Nanocoast® range which has been salt spray tested for 2,000 hours.

Anodised Coatings: The anodised coating used on our Aluminium Victorian Urns conform to ISO 7599 AA15 and comes with a 10 year colour fastness guarantee.

Guarantees: The guarantees mentioned in this brochure are for guidance only and unless otherwise stated, only relates to products being used in inland areas which are defined as 25 miles from the coast, or 5 miles from highly polluted industrial areas. Please ask your UAP account manager for copies of the guarantee wording covering your product of interest and please talk to your account manager about any specific application you might have.

**48 hours means 2 working days*

Product colours may vary slightly from the actual photograph shown due to photography and printing techniques.

It's no secret that a decorative door knocker can really enhance and improve the overall look of an entrance door. But, all the measuring, drilling and bolting involved in fixing one often puts people off. Not to mention the unsightly fixings showing through on the inside of the door.

The often tricky process creates a lot of work and extra cost, just to get the few holes in the right position to fix the door knocker in, and if a customer changes their mind the holes can't be filled and the door will be left damaged. So we understand why many just don't bother!

This innovation removes the need to drill through the door, not only do you get a much cleaner, smoother look on the inside, it also eliminates the chance of water ingress and rot, so getting a call out for remedial work on liable water damage will be a thing of the past.

What's more, it can be removed quite easily and any remaining adhesive will peel away leaving no damage to the door at all.

IT'S NOT MAGIC, IT'S HIDDEN FIX

But what if we told you that you had absolutely no need to get your toolbox out to fix a beautiful and stylish door knocker to a front door? 'How...! I hear you ask!

Well, thanks to UAP's brand new, exciting product, adding a door knocker to an entrance door will now be a quick, simple and cost effective process.

Launching in early 2012 the Hidden Fix Door Knocker has a patent applied for widget with a super-strong, waterproof adhesive covering so it can simply be stuck on to a door with nothing more than a - ta-dah!

Combining the style, quality and value for money that customers have come to expect from UAP products, the Hidden Fix Door Knocker is available in a choice of aluminium, PVD gold, mirror polished stainless steel, black, white, brass and chrome in both classic Victorian and Slimline styles. All come with or without a hole for door viewers (see our door viewer brochure for our range).

We recommend that the Hidden Fix lollipop is fitted to the door during production and the door knocker is kept separate until installation, this will ensure that the product does not get damaged in transit.
