

# **UAP America Storm Door Kit**

UAP have developed replacement euro cylinders for two of the USA's most popular keyways - Kwikset KW1 and Schlage SC1. In America, many exterior access doors have a storm door installed in front of them for ventilation purposes and protection against bad weather. Storm doors are generally fitted with a euro-style cylinder that requires a different key to the exterior access door, which is often lost or not used. Designed to replace storm door euro cylinders, the UAP Storm Door Kit contains a thumbturn euro cylinder which can be easily re-pinned to exterior access door locks using the existing key and re-pinning kit, offering homeowners a one-key solution. The UAP America Storm Door Kit can also be used as a standard re-pinning kit for other existing KW1 and SC1 locks, including the UAP America Thumbturn Euro Cylinders.

#### What's in the box?

#### **Each UAP Storm Door Kit contains the following:**

- 1 x 5 pin cylinder (KW1 or SC1 keyway) in your choice of finish and size
- 1 x Allen key
- End caps
- A selection of springs
- A selection of different sized KW1 or SC1 pins

UAP Storm Door Kits **do not contain a key** as the euro cylinder is designed to be re-pinned to an existing KW1 or SC1 lock using a key. Storm Door Kits can be re-pinned to UAP America Thumbturn Euro Cylinders.
